

BEVERLEY & EAST RIDING

Golf Club Ltd.

Anti Mill, Westwood, Beverley, East Yorkshire HU17 8RG

The safety of members and visitors and the protection of club property remain a top priority. We would therefore like to remind everyone that, when using a golf buggy on the course, you must follow the recommended routes and guidance detailed in the attached Safe Use of Golf Buggies document.

The guidance has been developed to identify areas of the course where additional care is required, including steep slopes, uneven ground and routes that should be used during wet conditions. Please familiarise yourself with these recommendations before using a buggy.

Failure to follow the recommended routes and safety guidance may not only place yourself and others at risk, but could also invalidate any claim relating to damage to the buggy or personal injury arising from an incident where the published guidance has not been followed.

In addition, members and visitors who use their own privately owned golf buggy on the course must ensure they have current and valid insurance that specifically covers its use on the golf course.

It is your responsibility to ensure that your insurance remains valid and up to date at all times.

We ask all members and visitors to:

Read the attached guidance before using a buggy.

Observe all course signage.

Follow the recommended routes at all times, particularly in the identified high-risk areas.

Exercise extra caution during wet or adverse ground conditions.

Ensure that privately owned buggies are covered by appropriate insurance

Your cooperation is appreciated and will help ensure the continued safe use of golf buggies for all members and visitors.

Thank you for your understanding and support.

Kind regards,

Phil Cooke
